

the **Welcome** collection

# Welcome

If your searching for a distinctive entrance door that is designed to add value to your home, whilst retaining the traditional feel of timber, look no further, you have just discovered the exclusive Welcome Collection. Strong, durable and secure, each door has been designed to offer a unique look that will enhance any home.

The Welcome Collection offers the look and feel of a timber door without the inherent problems.

No more painting, sanding or varnishing. No more cracking, bowing or twisting. Just an occasional wipe over with a damp cloth will restore it to its original finish.

Each door is manufactured utilising state of the art technology and meets all British Standard tests.

The door core material is manufactured from high density foam which is ODP Zero (Ozone Depletion Protection) and provides both excellent thermal and noise insulation.

## GRP

By casting our Welcome Collection Fibreglass (thermo set) door facings in original American Oak moulds we achieve a deep grain-effect detail that has the feel and elegance of a traditional wooden door without the inherent maintenance problems.

Each door-facing carries all the hallmarks of the master mouldmakers craft, displaying superior quality, brought to life by the unique characteristics of the craftsman's hand. Fibreglass (thermo set) facings offer a high degree of thermal efficiency, strength and extremely low thermal expansion, an ideal solution for coloured doors in south facing locations.

The two small twin toplites still allow a good flow of natural light and can be enhanced further with the addition of a decorative glazing option.

# Bespoke Glazing

## Venting Sash Doorlites

The Venting Doorlite is a revolutionary product, incorporating a sash window into a standard door opening. Ideal for use in kitchens, where extra ventilation may be required, the Venting Doorlite also comes with an integral fly screen. To add decoration, a Georgian bar effect has been encapsulated between the panes of glass. Simple fingertip controls ensure easy and fast operation

## Venetian Blind Doorlites

The Venetian blind is encapsulated within the insulated glass cavity of this Doorlite to provide a zero maintenance blind that requires no cleaning. The blind can be raised, lowered or tilted easily using the unobtrusive fingertip controls on the edge of the frame.

The two options above are only available with white glazing cassettes as shown, so should only be fitted to a White on White coloured door. The above glazing options have not been tested to SBD standards.

# Specifications

**Frames** - The stiles and rails are of a water resistant composite material ensuring flatness, strength and providing supreme stability that offers exceptional performance to the elements that is built into every door.

**High Density Foam Core** - That is both ODP Zero (Ozone Depletion Protection) and CFC free offering Strength and excellent thermal and noise insulation six times that of a traditional wooden door.

**High Level Security** - Each Welcome collection door is fitted with a 2 hook 3 deadbolt 44mm aluminium face plate lock that meets and complies with PAS 23/24, anti drill five pin cylinders plus cylinder guard are fitted as standard and protect from forceful entry.

**Furniture** - Please view overleaf our range of door furniture designed to compliment each door from the range.

**Accredited Threshold** - Low Aluminium thresholds are designed to comply with Part M allowing easy access for wheelchairs and pushchairs. Ask your installer for advice on thresholds.

**Outer Frame** - A purpose built UPVC outer frame utilises 3 seals (particularly rare on a flush fitting door) that offers excellent draught and sound-proofing qualities. 13

# Furniture

Once you have made the wise choice of selecting a Welcome door for your home we want you to be able to dress your door with furniture that complements the style and matches the craftsmanship.

All our furniture items are carefully selected and are available in a variety of finishes.

# Accreditations

All the doors in the Welcome range have been tested to the rigorous standards of the official organisations featured on this page and have received full accreditation.

The doors have been subjected to tests emulating severe weather conditions and tests which replicate burglary attempts.

In all tests the standard requirements to ensure accreditation were exceeded.
